

**Working  
Committee  
Report**

**Mechanism for monitoring, verification and compliance of RPO  
of Captive Users and Open Access Consumers under MERC  
(RPO REC) Regulation, 2010 (Case no. 49 of 2013)**

Date: 25 February 2014

To,  
Principal Secretary  
Maharashtra Electricity Regulatory Commission  
World Trade Centre, 13th Floor,  
Cuffe Parade, Mumbai 400 005

**Subject: Submission of Working Committee Report formed under Case No. 49 of 2013.**  
Ref: MERC order in Case no. 49 of 2013 dated 22/07/2013.

Respected Sir,

With reference to subject cited above, we the Committee members pleased to submit herewith Working Committee Report for kind consideration of Hon. Commission. The report is prepared on the basis of ToR as per order mentioned above and various deliberations/ verification / validations made during the course of working of Committee.

Working Committee is grateful to MERC & MEDA officials for their continuous support & help during the tenure of Working Committee. Working Committee is also grateful to Hon. Commission for giving this opportunity to work on such a sensitive issue of Renewable Purchase Obligation in case of CPP & OA Consumers.

Working Committee hope that, the findings / suggestions / recommendations made in the report will be found in line with the requirement and to the satisfaction of Hon. Commission for further needful actions in this regard.

Thanking You

Yours Faithfully,

  
Dr. J.V. Torane,

## **1. Executive summary**

### **1.1 Background for Working Committee constitution & its scope**

- 1.1.1 Maharashtra Electricity Regulatory Commission notified the MERC (Renewable Purchase Obligation, its Compliance and Implementation of REC framework) Regulations, 2010 herein referred as RPO Regulations on June 7, 2010 and specified the Renewable Purchase Obligation (RPO) targets for Obligated Entities, i.e. Distribution Licensees, Captive Users and Open Access Consumers within the State of Maharashtra for F.Y 2010-11 to F.Y 2015-16.
- 1.1.2 Under the said (RPO REC) Regulation 2010, Hon. Commission vide Case no. 99 of 2012, Case no. 100 of 2012, Case no. 101 of 2012 & Case no. 102 of 2012 initiated a SUO-MOTO proceedings for the verification and compliance of RPO Target of Distribution Licensees i.e. TPC-D, BEST, Rlnfra-D & MSEDCL cumulatively for year 2010-11, 2011-12 & 2012-13.
- 1.1.3 Apart from Distribution utilities, Captive Users & Open Access consumers have also been obligated under (RPO REC) Regulation 2010 as an obligated entity, who should comply with the RPO Targets stipulated by the Hon. Commission as per regulation 5.1 under the MERC (RPO REC) Regulation 2010.
- 1.1.4 Furthermore, as per regulation 11.3 provides exemptions for few categories of Captive Users and accordingly regulation 11.1, 11.2, 11.3 & 11.4 of principal regulation 2010 provides guidelines for RPO compliance by Captive Users & Open Access consumers.
- 1.1.5 The Commission to undertake the monitoring functions envisaged under (RPO REC) Regulation 2010, through its Suo-Motu Order dated 1 July, 2010 in Case No. 21 of 2010 designated the Maharashtra Energy Development Agency (MEDA) as the State Agency and directed to implement the RPO Mechanism in the State.
- 1.1.6 In line with the above the Commission during hearing in Case no. 100 of 2012 held on 23<sup>rd</sup> October, 2012 directed MEDA to prepare & submit the updated list of obligated entities under Captive Users & Open Access consumers to the Hon. Commission.
- 1.1.7 In accordance with the Regulation 9.6 of (RPO REC) Regulation 2010 and specific order in Case no. 100 of 2012, MEDA submitted the RPO settlement data for Captive Users & Open Access consumers in the Maharashtra along with updated status vide their letter dated 26<sup>th</sup> November, 2012.

## 1.2 Identification of key issues / challenges addressing ToR items

1.2.1 On the basis of list CPP / OA consumers list provided by MEDA, Hon. Commission initiated the suo-motu hearing for verification & compliance of Renewable Purchase Obligation Targets for FY 2010-11 & 2011-12 on 30<sup>th</sup> April, 2013.

1.2.2 The Second hearing in the matter was held on 22 May, 2013. During the hearing, the Commission directed MEDA to improve methodology for timely collection of data/information from Obligated Entities i.e. Distribution Licensees, Captive Users and Open Access Consumers, to ensure their RPO compliance. The Commission also directed to constitute a committee with representatives of MEDA, MSLDC, MSEDCL, Electrical Inspector and MERC officials, Shri. Ajit Pandit, Consultant for the said purpose. The committee supposed to submit the report within 2 weeks time along with its findings & observation.

1.2.3 Accordingly, based on the deliberation and analysis carried out, the Committee submitted its interim report on identification of key issues / challenges in implementation of RPO Mechanism specifically in case of CPP / OA consumers. Committee summarized this report as per following;

- MEDA, on basis of information received from Electrical Inspector office and DISCOMs will freeze the final list of the Obligated Entities under RPO Regulation (for CPP and OA). The Commission may utilize the same list to work out the Renewable Purchase Obligation for Obligated Entities i.e. for CPP and OA for verification and compliance of RPO Targets for FY 2010-11 and FY 2011-12 in the Case of 49 of 2013.
- MEDA will discuss the draft process flow chart for collection and verification data of Obligated Entities and methodology for updating the information, during the commission's Review meeting, scheduled on 17 June, 2013. Incorporating suggestions of, EI Office, SLDC and Distribution Utilities and directives of the Commission, MEDA will finalize the process chart and the methodology for updating the information and will incorporate the same in the RPO Manual for Obligated Entities, which will help the MEDA for monitoring the RPO compliance of the obligated entities in the future years.
- Accreditation of CPP/OA obligated entities and their facilities:  
MEDA is suggested to undertake accreditation of entities identified as obligated entity in line with the existing accreditation procedure for RE generators applying for REC mechanism.

1.2.4 As per the direction of Hon. Commission, MEDA vide its letter dated 14th June, 2013 submitted the updated compiled report in Case of 111 CPP / OA consumers obligated entities. Thereafter, Committee's interim report and submission of MEDA dated 14th June, 2013; Hon. Commission has initiated the suo-motu hearing in this matter and issued order dated 22nd July, 2013, wherein Hon. Commission has

observed that, the Committee identified the gaps in the existing process of RPO compliance and monitoring of obligated entities and gave recommendations for improving the same.

1.2.5 To address these issues Hon. Commission has directed to constitute Working Committee to formulate the mechanism for monitoring, verification and compliance of RPO of Captive Users and Open Access Consumers. The Working Committee shall consist of following representatives,

- i. General Manager, MEDA,
- ii. Superintending Engineer, MSEDCL
- iii. Senior level representative from TPC and Rlnfra
- iv. Superintending Engineer, MSLDC,
- v. Electrical Inspector (Executive Engineer), PWD, GoM
- vi. MERC officials and MERC Consultant

1.2.6 Terms of Reference of the Working Committee shall be as follows:

- (i) Develop mechanism for listing and accreditation of Captive Users and Open Access Consumers and set rules for accreditation of Captive Users and Open Access Consumers
- (ii) Develop mechanism for establishing data flow and information exchange between various entities involved (Open Access Consumers to DISCOMs, Captive Users to Electrical Inspector's Office (PWD), DISCOMs to MEDA and Electrical Inspector's Office (PWD) to MEDA etc.), and to verify RPO compliance by Captive Users and Open Access Consumers.
- (iii) Meet on bi-monthly basis to review and, modify the mechanism, if found necessary.
- (iv) Provide continued assistance to MEDA in verification of RPO compliance by Captive Users and Open Access Consumers
- (v) MEDA shall act as convenor of the Working Committee; it shall arrange for secretarial support to Working Committee, maintain minutes of Working Committee meetings and be responsible for coordinating and reporting the developments to Commission on bi-monthly basis.
- (vi) The Working Committee shall submit its report to the Commission within six months from the date of formation of the Committee based on the above mentioned terms of reference.

### 1.3 Summary of the key recommendations of the Working Committee

To develop mechanism for listing and accreditation of Captive Users and Open Access Consumers and set rules for accreditation of Captive Users and Open Access Consumers, Working Committee designed and formulated improved data collection formats and set the rules for process flow data information from obligated entities to MEDA and further its validation from DISCOMs in case of CPP / OA consumers to MEDA and thereafter this validated data will be utilized for accreditation purpose of obligated entities.

Thereafter, Committee carried out the exercise and collected validation data in case of 114 CPP / OA consumer entities referred in case no. 49 of 2013 as per improved data collection formats for further accreditation at MEDA. The result shows that, there are 21 entities are eligible for accreditation as obligated entities under Captive Power Producers category, 46 entities are eligible for accreditation as obligated entities under OA consumer category and 47 entities are eligible for exemption from Renewable Purchase Obligation for the FY 2010-11 to 2012-13.

Committee further verified the list of 1056 entities from DISCOMs / MSLDC / PWD (Electrical) and attached as a part of this report.

While verification of these entities, it was decided that all captive generators having the synchronization facility will be considered for listing & accreditation. The list to be prepared on the basis of grid connectivity & not the present usage of generation. The RPO obligation will be based on usage of generation which will be tracked on ongoing basis.

#### Working Committee key recommendations:

- To develop mechanism for establishing data flow and information exchange between various entities involved (Open Access Consumers to DISCOMs, Captive Users to Electrical Inspector's Office (PWD), DISCOMs to MEDA and Electrical Inspector's Office (PWD) to MEDA etc.), and to verify RPO compliance by Captive Users and Open Access Consumer, DISCOM, PWD (Electrical) & SLDC to submit information of their CPP/OA consumers quarterly in the data collection formats developed by Working Committee on regular quarterly basis to MEDA as under procedure of process flow chart for collection and verification of data.
- Cogeneration status will be certified by MEDA for Non- conventional plants & for Conventional plants by MSEDCL, MSETCL or PWD (Electrical).
- The grid connectivity status of captive power plant is the eligibility criterion as an obligated entity even though they momentarily connect / synchronized their unit to the grid as per their requirement.
- During the deliberations Working Committee expressed tremendous need of web portal for RPO Mechanism so as to ease in compilation of data and reports of obligated entities under RPO Mechanism. This will also facilitate Distribution licensees, PWD & SLDC in order to identify & onwards certification of entities as an obligated entities.

## 2. Working Committee in Case no. 49 of 2013

### 2.1 Working Committee formation

Hon. Commission in its order dated 22 July 2013 in case no 49 of 2013 directed for constitution of working committee in order to formulate the mechanism for monitoring, verification and compliance of RPO of Captive Users and Open Access Consumers. The Working Committee shall consist of following representatives,

- i. General Manager , MEDA
- ii. Superintending Engineer, MSEDCL
- iii. Senior level representative from TPC and Rlnfra
- iv. Superintending Engineer, MSLDC,
- v. Electrical Inspector (Executive Engineer), PWD, GoM
- vi. MERC officials and MERC Consultant

Hon commission further directed that, MEDA shall act as convener of the Working Committee; it shall arrange for secretarial support to Working Committee, maintain minutes of Working Committee meetings and be responsible for coordinating and reporting the developments to Commission on bi-monthly basis.

Accordingly, MEDA vide office letter dated 02/08/2013 issued letters to all concern department/offices for nomination of their representative latest by 15/08/2013 and thereafter vide office letter 26/08/2013 (Annex-I) informed to Hon. Commission about formation of working committee constituted with following members.

- a. Shri. Anant Sant, Dy. Director (Tech) MERC
- b. Dr. J.V.Torane, General Manager (REC, R&D),MEDA
- c. Shri. Ajit Pandit, Idam Infra, MERC Consultant
- d. Shri. Sunil.H.Waikar, Superintending Engineer (CP), MSEDCL
- e. Shri. Jayant Kulkarni, Superintending Engineer (EA), MSLDC
- f. Shri. Hemant Sali, Executive Engineer, PWD
- g. Shri. Bhaskaran Thatra K, Head- Power purchase & ABT, TPC-D
- h. Shri. Kishore Patil, Vice President, Rlnfra-D

### **3. Proceedings of the Working Committee**

#### **3.1 1st Meeting of Working Committee on 26th September, 2013 at MERC, Mumbai**

During the meeting, General Manager, MEDA highlighted the Terms of Reference of the Working Committee as per the order Hon. Commission in Case no. 49 of 2013 which is summarized as under.

#### **1. Terms of Reference of the Working Committee shall be as follows:-**

- (i) Develop mechanism for listing and accreditation of Captive Users and Open Access Consumers and set rules for accreditation of Captive Users and Open Access Consumers.
- (ii) Develop mechanism for establishing data flow and information exchange between various entities involved (Open Access Consumers to DISCOMs, Captive Users to Electrical Inspector's Office (PWD), DISCOMs to MEDA and Electrical Inspector's Office (PWD) to MEDA etc.), and to verify RPO compliance by Captive Users and Open Access Consumers.
- (iii) Meet on bi-monthly basis to review and, modify the mechanism, if found necessary.
- (iv) Provide continued assistance to MEDA in verification of RPO compliance by Captive Users and Open Access Consumers
- (v) MEDA shall act as convenor of the Working Committee, it shall arrange for secretarial support to Working Committee, maintain minutes of Working Committee meetings and be responsible for co-coordinating and reporting the developments to Commission on bi-monthly basis.
- (vi) The Working Committee shall submit its report to the Commission within six months from the date of formation of the Committee based on the above mentioned terms of reference.

In line with the above terms of reference, to develop RPO Mechanism Committee members discussed the format for data collection in respect of CPP & OA consumers having consumption / contract demand 1MW & 1MVA or above respectively.

#### **2. Discussion on CPPs:**

1. There are problems in identification of obligated CPPs due to the following:

- a. EI does not capture the 'purpose' of CPPs during their registration.
- b. Even if EI captured the purpose, it might change y-o-y
- c. CPPs may be connected to the load which is in turn connected to the grid; CPPs might not be connected to the grid directly. i.e not for parallel operation
- d. Confusion regarding seasonality of operation of CPPs.

In order to overcome the problems, the following was suggested.

- a. A list of all registered CPPs which are 'synchronized with the grid' will be drawn up. List of registered CPPs is available with the EI, Synchronization status is known to the host DISCOM (generation side).
- b. Such list will be provided to MEDA for further verification by DISCOM / SLDC.
- c. Quarterly accounting and reporting of the consumption by identified CPPs consumers will be done by MEDA after collection of relevant information by EI and the DISCOMs.
- d. The EI and DISCOMs will submit information about quarterly consumption by identified CPP consumers as per the formats attached in the Annexure.

### **3. Discussion on OA Consumers:**

- a) SLDC may only be able to provide a list of consumers seeking Transmission OA. Therefore, information about OA consumers should be sought from host DISCOM.
- b) For the purpose of identification of OA consumers, their respective Consumer no.s issued by the host DISCOM can be used.
- c) On the issue of double accounting of RE power by DISCOMs for their own RPO compliance, this system of verification and monitoring may help in determining how much of wheeled RE power was actually consumed by the DISCOM.

Information/data of OA consumption by the identified OA consumers will be provided by the DISCOMs to MEDA on a quarterly basis as per the format attached in the Annexure.

The formats suggested by members are attached at **Annexure-I & II**.

- a) It was decided that all captive generators having the synchronization facility will be considered for listing & accreditation. The list to be prepared on the basis of grid connectivity & not the present usage of generation. The RPO obligation will be based on usage of generation which will be tracked on ongoing basis.
- b) During the discussion on CPP / OA consumers data collected by MEDA which was submitted to Hon. Commission in case no. 49 of 2013, G.M MEDA pointed out that as per Hon. Commissions order the data needs to be validated through further scrutiny by DISCOMs & SLDC. The Compiled report was shown to Committee Members for

further discussion. On detailed discussion it has been suggested by all Committee Members that MEDA may circulate these copies of the reports to DISCOMs & SLDC for further validation. MEDA agreed to circulate the data for validation within a week.

- c) During the discussion on data collection Shri. Hemant Sali EE PWD (Electrical) brought to notice to the committee that, they submitted list of 309 in nos. CPPs to MEDA. G.M. MEDA informed that they have received list from various sources totaling to around 1010 no.s which is being reviewed through review meeting with entities. He further added that this entities need to be confirmed by concerned DISCOMs & PWD (Electrical) for its grid connectivity. On discussion Committee members suggested that MEDA may forward the list to DISCOMs & PWD (Electrical) including SLDC along with proper format in which list to be submitted to MEDA. G.M MEDA agreed for the same.
- d) Apart from this list Shri Jayant Kulkarni, SE EA MSLDC informed that the list of OA consumers available with them will also be forwarded to MEDA in proper format as suggested by Working Committee.
- e) Shri. Ajit Pandit pointed out that there is need to develop mechanism for listing & accreditation of obligated entities on receipt of information from DISCOMs, PWD (Electrical) and SLDC to MEDA. G.M. MEDA informed that, on the receipt of information in formats suggested by Committee Members, MEDA will allocate accreditation number to these entities and will be displayed on MEDA website ([www.mahaurja.com](http://www.mahaurja.com)) as a part of mechanism.

#### **4. Concluding remarks in the meeting:**

- a) List of 21 CPPs and 43 OA consumers (as referred by MEDA) will be given by MEDA to DISCOMs for verification validation.
- b) Another list of 1010 CPPs / OA will be provided by MEDA to EI and DISCOMs for further verification & submission in proper format to MEDA.
- c) Direct communication on verification, procedures, formats and anything related to the subject matter between MEDA, DISCOMs and EI should continue even in the normal course, and working committee may be briefed about such interactions/deliberations during subsequent meeting of the working committee.
- d) Timelines for further action as per the report shall be framed.

While concluding the discussion Shri. Anant Sant, Dy. Director MERC opined that the data collection formats suggested by Working Committee will help to develop mechanism for establishing data flow & information exchange between various entities involved (OA consumers, DISCOMs, Captive Users to E.I office PWD) to MEDA.

### 3.2 2nd Meeting of Working Committee on 28th November, 2013 at MERC, Mumbai

During the meeting, General Manager, MEDA take a brief note on points for compliance which were discussed in First Working Committee meeting held at MERC, Mumbai on 26.09.2013 are summarized below,

- i. The quarterly CPP/OA data collection formats are made available to all concern for data submission on regular basis to MEDA.
- ii. List of 111 CPP/OA consumers circulated to all concern for validation.
- iii. List of 1056 CPP/OA consumers circulated for reformation of information in prescribed formats provided to all concerned.  
With this, proceedings of second Working Committee meeting initiated for further discussion:-

#### A. Discussions & observations

##### 1. Grid connectivity or Synchronization status of entities

The discussion was started with status & definition of grid connectivity as grid connectivity status is a prominent criterion for any entity to be accredited as an obligated entity under RPO Mechanism. Synchronization status of entities with the grid / network of host DISCOM to be check & records of the same is to be maintained by the concerned DISCOMs. Various modes of grid connectivity status of entities have been discussed. It was discussed that, any generator which desires to synchronize with the grid or is already synchronized, will have to take necessary 'connectivity' from concerned DISCOM/Transco as the case may be. This is as per the applicable MERC/CEA regulations. Any generator having connectivity with grid through the above process will be an obligated entity as per RPO regulation. At the time, Shri. Kishore Patil, Rlnfra-D proposed that, a standard draft to be prepared which will be send to all utilities & subsequently to all entities for identification of their Grid connectivity status. This has been supported by Shri. Anant Sant, Dy.D, MERC & Shri. Ajit Pandit, Consultant to MERC. Working Committee members agreed for this and suggested that, Shri Kishore Patil, Rlnfra-D will prepare this draft and circulate to all committee members for comments & final letter will be issued by MEDA to all concern for action. Finally MEDA vide their letter dated 8th January, 2014 issued Grid Connectivity letter of Captive Power plant to all concern for its onward necessary action. **Annexure-III**

##### 2. CPP/ OA consumers data validation report

- a. TPC-D & Rlnfra-D has already submitted their validation report of concern entities out of 111 entities for its accreditation under RPO Mechanism. It has been brought to the notice of Working Committee that the validation report from MSEDCL is still awaited. After discussion in committee meeting, MSEDCL has been asked to submit the data

within 10 days from the date of meeting. MSEDCL agreed for this and committed to submit it within period.

- b. Shri. Jayant Kulkarni, MSLDC informed that they have already submitted their list of OA consumers vide email dated 18/10/2013 to MEDA. During discussion G.M, MEDA informed that the list received from MSLDC is not in prescribed format of OA consumers and same is needed to be submitted in prescribed format of OA consumers. Shri. Jayant Kulkarni, MSLDC agreed for the same.
- c. G.M MEDA asked for submission of 1056 list of entities in formats as approved by Working Committee in their previous meeting on 26.09.2013, Rlnfra has submitted information of entities on their respective network. Similar reports from TPC-D, SLDC & PWD (Electrical) are still awaited, during discussion, Mr. Hemant Sali, PWD (Electrical) has suggested to re-circulate the 1056 entities with preliminary information of enlisted entities available with MEDA. MEDA agreed on same and list of 1056 entities circulated as per **Annexure-IV** to all concerned.

### 3. Web Portal for RPO mechanism

During discussion, Mr. Hemant Sali, PWD (Electrical) has suggested a tremendous need of web portal for RPO Mechanism so as to ease in compilation of data and reports of obligated entities under RPO Mechanism. This will also facilitate Distribution licensees, PWD & SLDC in order to identify & onwards certification of entities as obligated entities. G.M MEDA informed that creation of web portal activity has been already initiated by MEDA & also quoted that there is need of proactive support from all concerned departments for creation & effective working of web portal for RPO Mechanism.

### 4. Exemption for CPP / OA consumer under RPO Obligation

Various categories of exemption for RPO mechanism has been discussed for an entity to seek exemption from RPO Mechanism depending upon they must have got certification as mentioned in point no. 16 of RPO manual. Mr. Hemant Sali, PWD (Electrical) has express their concern about certification of cogeneration of entities under RPO Mechanism. G.M MEDA clarified that Hon. Commission has already issued notice to CPP/OA consumers dated 10/04/2013 in this regards, wherein MEDA's role is restricted to certify Cogeneration status of Non- conventional energy sources (Renewable Energy sources) and hence certification of Cogeneration status of conventional sector does not comes under the purview of MEDA. He further added that, concerned licensees already mentions the Cogeneration status while certification of their applicants. Mr. Hemant Sali, PWD (Electrical) agreed that they will design a format for certification of Cogeneration status on due consideration of Energy audit report of the entity seeking for Cogeneration status. After detail discussion, it was decided that for

Non-Conventional sources Cogeneration certification will be given by MEDA and Conventional sources Cogeneration certification will be given by MSEDCL, MSETCL or PWD (Electrical).

**B. Decisions taken in Second Working Committee meeting**

- a) DISCOM, PWD (Electrical) & SLDC to submit information of their CPP/OA consumers quarterly in the data collection formats on regular basis to MEDA.
- b) A format for certification of Grid connectivity status to be drafted by RInfra-D & circulate among Working Committee member for its approval and then circulation by MEDA for action to all concern.
- c) MSEDCL will be submitting their validation report of 111 entities within 10 days from the date of second Working Committee meeting i.e. 28.11.2013.
- d) MEDA will re-circulate the revised list of 1056 entities with added information of entities.
- e) Cogeneration status will be certified by MEDA for Non- conventional plants & for Conventional plants by MSEDCL, MSETCL or PWD (Electrical).

### 3.3 3rd Meeting of Working Committee on 24th January, 2014 at MERC, Mumbai

During the meeting, General Manager, MEDA take a brief note on points for compliance which were discussed are as follows;

#### **A. Discussions & observations**

##### **1. Compliance as per last Working Committee meeting**

As discussed during second Working Committee meeting dated 28/11/2013, it was suggested by Working Committee to re-circulate the 1056 entities with preliminary information of enlisted entities available with MEDA and same was circulated with the minutes of second Working Committee. Except MSEDCL, verification report from TPC-D, Rlnfra-D & SLDC have been received. It was once again informed to MSEDCL that they should submit their 1056 obligated entities verification report to MEDA on or before 12/02/2014.

##### **2. Approval for accreditation of obligated entities validated by DISCOMs**

On the basis of validation reports submitted by MSEDCL, TPC-D & Rlnfra-D, a final list of 114 entities (previously 111 entities) was once again submitted in Working Committee for confirmation. **Annexure-V**

##### **3. Review on grid connectivity letter to obligated entities from DISCOMs**

After finalization of Grid Connectivity letter, all DISCOMs have started circulating the letter to all concerned for the status of their grid connectivity so as to ease in recognizing them as an obligated entity. Further during onwards discussion on MERC RPO-REC regulation, 2010 clause 5.1 (a) states that,

“Any person who owns a grid connected Captive Generating Plant with installed capacity of 1 MW and above (or such other capacity as may be stipulated from time to time) and consumes electricity generated from such plant for his own use; shall be subjected to minimum percentage of RPO to the extent of his consumption met through such captive source.”

The above clause exhibits that, the grid connectivity status of captive power plant is the eligibility criterion as an obligated entity. Even though they momentarily connect / synchronized their unit to the grid as per their requirement.

##### **4. Web Portal for RPO Mechanism**

MEDA has already initiated the work for establishment of RPO web portal by hiring a professional in this field who will assist MEDA for successfully executing and

completion of work of web portal for RPO Mechanism. Further, Shri. Hemant Sali, Executive Engineer, PWD quoted that they have done similar kind of assignments in their organization and also having a good hand on experience on the same. Shri. Anant Sant, Dy. Director (Tech) MERC suggested to take help of Shri. Hemant Sali. MEDA and Shri. Hemant Sali, Executive Engineer, PWD agreed on the same.

#### **5. Interim Report of Working Committee**

General Manager, MEDA had asked for suggestion to Working Committee members for preparation of interim report on work done by Working Committee to be submitted to Hon. Commission as per TOR mentioned in order of Case no.49 of 2013. It was suggested that, interim report to be prepared on the similar grounds of report submitted to Hon. Commission during a committee formed to improve methodology for timely collection of data/information from Obligated Entities to ensure their RPO compliance for Case no. 49 of 2013. It was also suggested that MEDA may prepare a draft of interim report and circulate to Working Committee members for their corrections / suggestion so that same could be finalized in next Working Committee meeting.

#### **B. Decisions taken in third Working Committee meeting**

MSEDCL should submit their verification report on 1056 obligated entities to MEDA on or before 12/02/2014 along with their grid connectivity status. All other DISCOMs may also submit the grid connectivity status of the entities on their network.

MEDA to circulate draft of Working Committee interim report to its members along with RPO manual for onward suggestions and corrections.

[Block diagram representing data flow / information exchange for RPO compliance form CPP / OA consumers along with verification protocol.](#)

Below diagram shows how the communication between MEDA and other entities including DISCOMs, SLDC, PWD (Electrical) happens. It also denotes the expected roles & responsibilities of the entities involved under RPO Mechanism.

**DISCOMs**

**(MSEDCL, BEST, TPC-D & RInfra-D)**

Responsibilities:

- Submit following RPO data in Soft as well as in Hard Copy to MEDA.
  - CPP RPO verification and validation data quarterly.
  - OA consumer RPO verification and validation data quarterly.
  - Their own RPO data quarterly.
- Comply RPO obligation annually.
- Attend quarterly RPO meeting at MEDA.

**CPP**

*Responsibilities:*

- To submit RPO accreditation application.
- To submit quarterly data in format specified to MEDA in soft as well as hard copy.
- To Comply RPO obligation annually.

**MSLDC**

Responsibilities:

- Submit following RPO data in Soft as well as in Hard Copy to MEDA.
  - OA consumer RPO verification and validation data quarterly.
- Attend quarterly RPO meeting at MEDA.

**MEDA**

*Responsibilities:*

- Quarterly collect RPO data from CPP, OA consumers & DISCOMs.
- Verify & validate RPO data from DISCOMs, MSLDC & PWD.
- Arrange quarterly meetings of DISCOMs, MSLDC & PWD.
- Submit quarterly & annually compiled data to MERC for approval.
- Accredited CPP & OA consumers data.
- Publish annually CPP, OA consumers & DISCOMs data.

**OA consumers**

*Responsibilities:*

- To submit RPO accreditation application.
- To submit quarterly data in format specified to MEDA in soft as well as hard copy.
- To Comply RPO obligation annually.

**PWD (Electrical)**

Responsibilities:

- Submit following RPO data in Soft as well as in Hard Copy to MEDA.
  - CPP RPO verification and validation data quarterly.
- Attend quarterly RPO meeting at MEDA.

**MERC**

To direct RPO obligation of the entities on the basis of compiled data to MEDA.

#### 4. Gap Analysis and Possible Solutions

Sr.no.	Gaps identified as per order dated 22/07/2013	Possible Solution suggested by Working Committee	Action Taken
1.	<p><u>Identification of Obligated Entities and listing:</u></p> <p>The list of CPP&amp;OA obligated entities in the State with MEDA is not exhaustive. Further, there exist no streamlined process for identification and registration of such Obligated Entities and MEDA would require considerable support from DISCOMs and office of Electrical Inspectorate (EI).</p>	<p>To Identify the obligated entity &amp; Streamline the data collection mechanism, Working Committee designed data collection formats in respect of CPP / OA consumers separately on quarterly basis from DISCOMs, SLDC &amp; PWD (Electrical).</p>	<p>These formats circulated to all concerned and data collection process is already set into in action to receive quarterly basis data at MEDA end.</p> <p>Initially list of 21 CPPs &amp; 46 OA consumers &amp; 47 exempted entities were finalized.</p>
2.	<p><u>Verification of Data submission by CPP consumers:</u></p> <p>EI reported that the energy generation data submitted by CPP is self certified and may not be authentic for the purpose of RPO compliance.</p>	<p>The data received from entities further verified and validated through DISCOMs / MSLDC / PWD (Electrical) in case of 21 CPPs (Out of 114) entities. Same method is set to adopt in future for Quarterly reporting, verification &amp; validation of RPO data submitted by obligated entities.</p>	<p>Flow chart of RPO Mechanism on quarterly basis is devised for the same.</p>
3	<p><u>Verification of Data submission by OA consumers:</u></p> <p>Data submission by OA consumers for RPO compliance is currently not verified.</p>	<p>The data received from entities further verified and validated through DISCOMs / MSLDC / PWD (Electrical) in case of 46 OA consumers (Out of 114) entities. Same method is set to adopt in future for Quarterly reporting, verification &amp; validation of RPO data submitted by obligated entities.</p>	<p>Flow chart of RPO Mechanism on quarterly basis is devised for the same.</p>

Sr.no.	Gaps identified as per order dated 22/07/2013	Possible Solution suggested by Working Committee	Action Taken
4	<p><u>Practical difficulties in monthly data submission:</u></p> <p>MERC RPO Regulations (11.1) specifies obligated CPP and OA consumers to submit data to the State Agency (MEDA) on a monthly basis, which is found to be practically difficult from data submission and collection point of view.</p>	<p>To overcome the difficulties Working Committee designed quarterly basis data collection formats.</p>	<p>The quarterly basis data collection formats suggested by Working Committee are part &amp; partial of this report.</p>
5	<p><u>Lack of standard data Formats:</u></p> <p>Though standard format exist for collection of data from CPP/OA consumers by MEDA, there should also be standard formats for data submission by DISCOMs/EI to MEDA and MEDA to MERC for RPO compliance data submission. The same would ensure effective data flow between each entities involved.</p>	<p>To overcome the difficulties Working Committee designed quarterly basis data collection formats.</p>	<p>Standardization of data collection formats has been taken care of effective data flow between entities involved.</p>
6	<p><u>Standard methodology for Energy Accounting for computing RPO compliance of Obligated Entities:</u></p> <p>For CPP/OA consumers other than those having in-situ captive power plants, the base energy to be considered for RPO compliance could be computed either based on the net energy or based on the gross energy at the generation point after accounting for the wheeling /transmission losses</p>	<p>Gross Energy Consumption from own generation from CPP unit and procured via Open Access is taken into consideration in formats designed for data collection.</p>	<p>DISCOMs / MSLDC / PWD (Electrical) to provide necessary consumption details of Captive / OA wheeling based Obligated entities as per data collection formats.</p>

Sr.no.	Gaps identified as per order dated 22/07/2013	Possible Solution suggested by Working Committee	Action Taken
	Incurred during the wheeling of power from the source of generation.		
7.	<p><u>Lack of check on Double accounting of RPO compliance:</u></p> <p>No check exist to verify that RPO compliance by CPP/OA is not counted towards RPO Compliance of the host Distribution Licensee.</p>	<p>This issue has already been taken care while designing the data collection formats which provides due certification from concerned DISCOMs while submitting data to MEDA.</p> <p>DISCOMs to ensure such duplication are avoided during reporting of RPO compliance of DISCOMs.</p> <p>Accreditation of obligated entities and coding of RE generation facilities/their transactions would be necessary to avoid duplication in the credit of RE energy towards RPO compliance accounting.</p>	Standardization of data collection formats has been taken care of effective data flow between entities involved.
8.	Lack of streamlined RPO related data flow between obligated entities and MEDA.	MEDA has taken initiative in designing web portal based data submission system to enable obligated entities and other supporting agencies (DISCOMS/MSLDC and EI) to make periodic submissions regarding RPO compliance.	Designing of Web portal is under development stage.
9	Lack of awareness among Obligated Entities:	MEDA has published RPO manual And provided copies to all concerned offices as well placed RPO Manual on its official website for wider dissemination.	Updated RPO manual for entities is in place.

## **5. Way Forward**

### **5.1 Need for Web Portal for RPO Mechanism**

During the discussion on RPO web portal, Working Committee has suggested a tremendous need of web portal for RPO Mechanism so as to ease in compilation of data and reports of obligated entities under RPO Mechanism. This will also facilitate Distribution licensees, PWD & SLDC in order to identify & onwards certification of entities as obligated entities. Web Portal will also help in streamlining the increasing number of entities on day to day basis and thereby more gathering of information on RPO obligated entities in the state.

### **5.2 Silent features and Scope of RPO web portal**

#### **5.2.1 Business overview**

The purpose is to promote co-generation from renewable sources and generation of electricity from renewable sources and is to specify a percentage for procurement of energy generated from such sources on the basis of total consumption of electricity within the area of a distribution licensee. To utilize minimum level of renewable energy out of the total consumption by the renewable energy sources such as solar, biomass, wind etc, the idea of obligation to such energy sources raised. According to the Central Government policy, the renewable energy namely Ministry of New and Renewable Energy (MNRE) in early eighties and further Maharashtra created Maharashtra Energy Development Agency (MEDA).

#### **5.2.2 Users & Entities**

There are below types of users or in other words users of below entities will be using this portal and respective rights will be provided:

- MERC
- MEDA
- DLs
- PWD / MSLDC
- CPP & OA companies

a. Distribution Licensee(s):

Each Distribution Licensee shall indicate, along with sufficient proof thereof, the estimated quantum of purchase from renewable energy sources for each year of the Operating Period under the Business Plan as well as under MYT Petition in accordance with Regulations notified by the State Commission and accordingly shall enter into long term arrangement to meet its RPO obligations.

1. The estimated quantum of renewable energy purchase shall be in accordance with clause 7.1 of these Regulations corresponding to the approved power purchase quantity for each year of the Operating Period.
2. The Distribution Licensees shall also furnish the summary statement of energy procured from different renewable energy sources on quarterly basis to the State Agency.
3. Distribution Licensees shall submit quarterly, the details of OA consumers
4. At the end of each financial year, each Distribution Licensee shall submit a detailed statement of energy procurement from various RE sources, duly certified by the auditors.
5. If any Distribution Licensees is unable to fulfill the obligation, they shall be liable to pay RPO Regulatory Charges as specified in clause 12.1 of these Regulations.

b. PWD:

Office of the PWD (Electrical) shall submit quarterly the details registered grid connected Captive Power Plants (CPP) & related information as per requirement of State Agency.

c. CPP & OA companies:

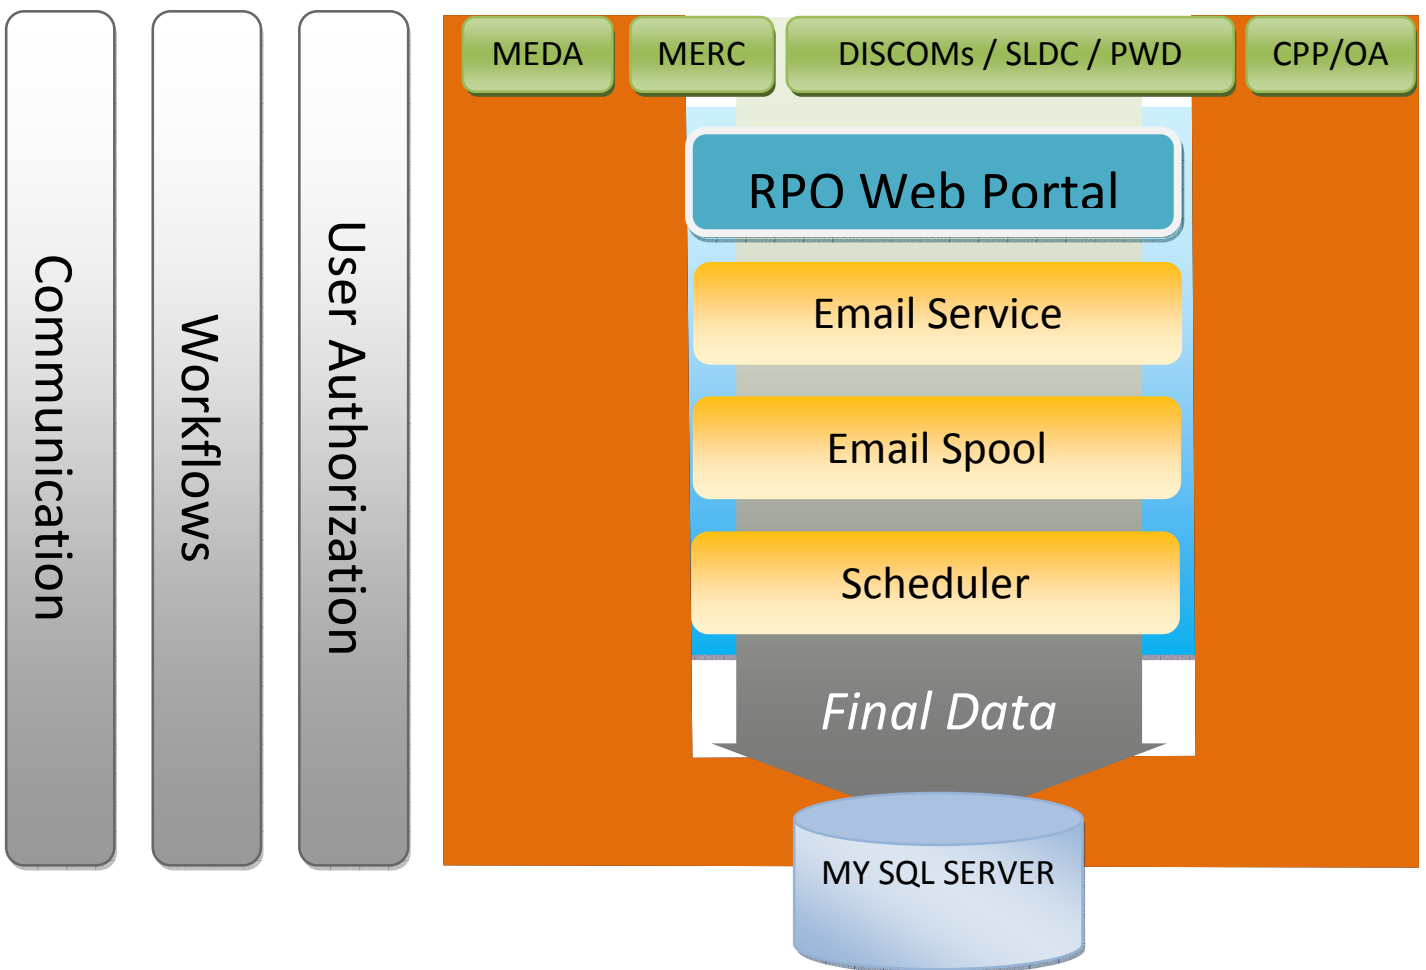

1. Every Captive User and Open Access consumer shall submit necessary details regarding total consumption of electricity and power purchase from renewable energy sources towards fulfillment of its RPO on quarterly basis to the State Agency in the prescribed formats approved by state commission.
2. Captive User(s) and Open Access Consumer(s) shall purchase renewable energy as stated in Regulation 7.1 & clause no.9 of RPO manual and accordingly shall enter into long term arrangement to meet its RPO obligations.
3. If the Captive User(s) and Open Access consumer(s) are unable to fulfill their obligation, they shall be liable to pay RPO Regulatory Charges as specified in Regulation 12.1.
4. Captive/Open Access consumer(s)/User(s) may fulfill their RPO through procurement of the Renewable Energy Certificate.

**5.2.3 Software/System Environment**

The ideal environment expected for this system is as below

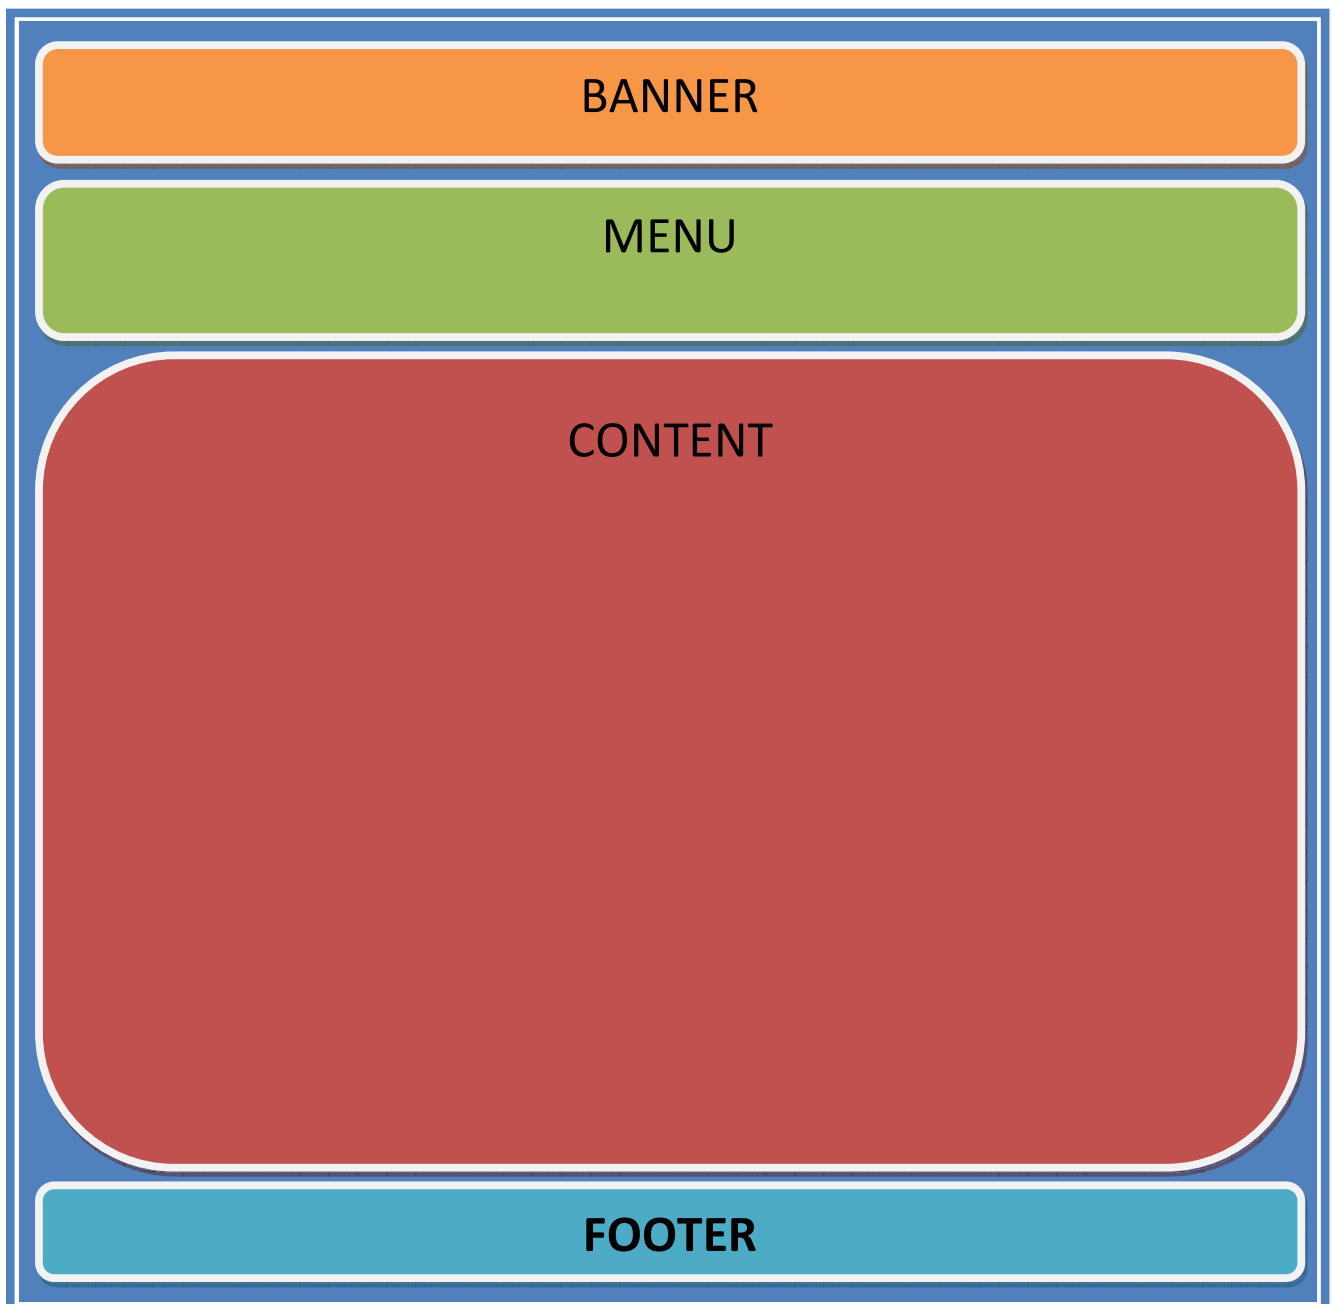

Specification	Technology
Web Application	ASP.net 3.5 or More
JS Framework	JQuery, EXTJs, or similar open source JS Framework
Database	SQL Server 2008

**5.2.4 System Architecture**

### 5.2.5 Layout

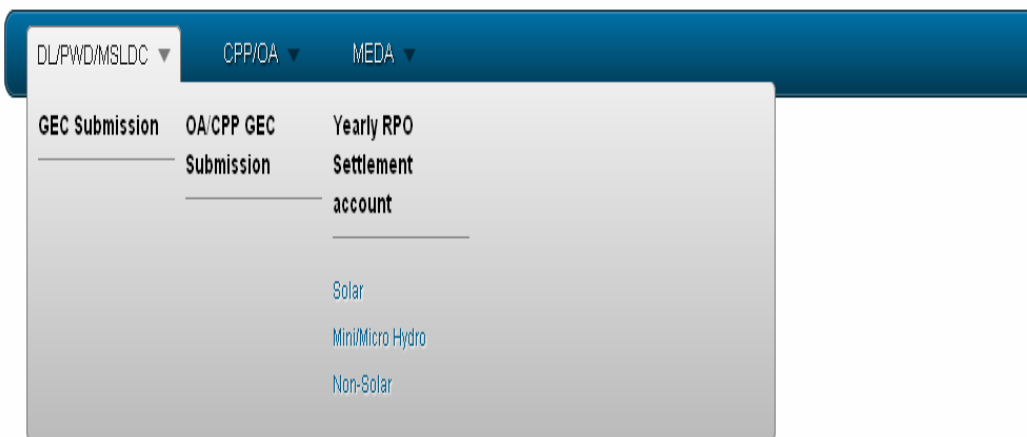

It is important to follow a layout to understand how things are assumed to look like throughout this document. Please keep below layout in mind while you read through.

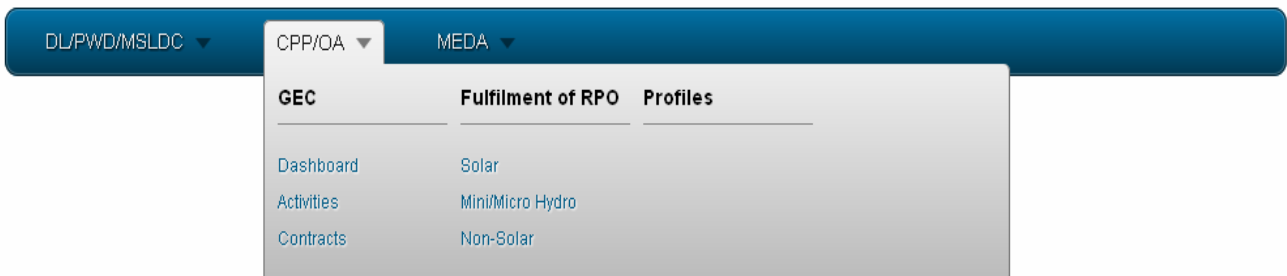

### 5.2.6 Quick Access Menu

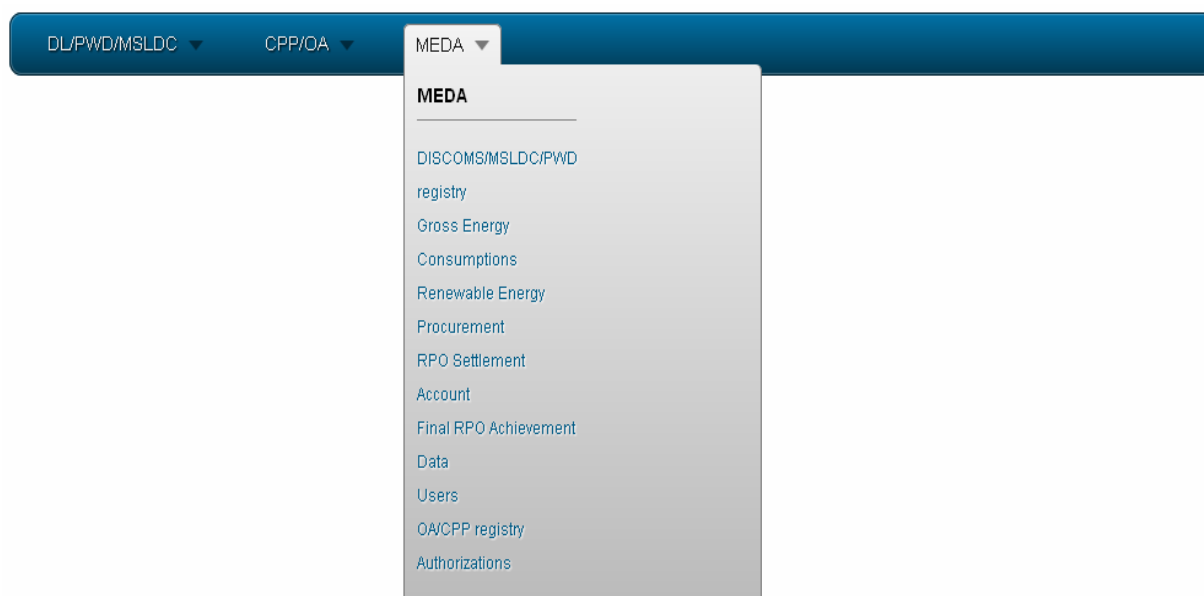

The menu below Banner is dynamically populated based on access rights of logged in user (entity). It forms to be the most important part of the application and will be always visible to the user and has below links to access the application functionalities

- DL/PWD/MSLDC
  - GEC Submission
  - OA/CPP GEC Submission
  - Yearly RPO Settlement account
    - Solar
    - Mini/Micro Hydro
    - Non-Solar

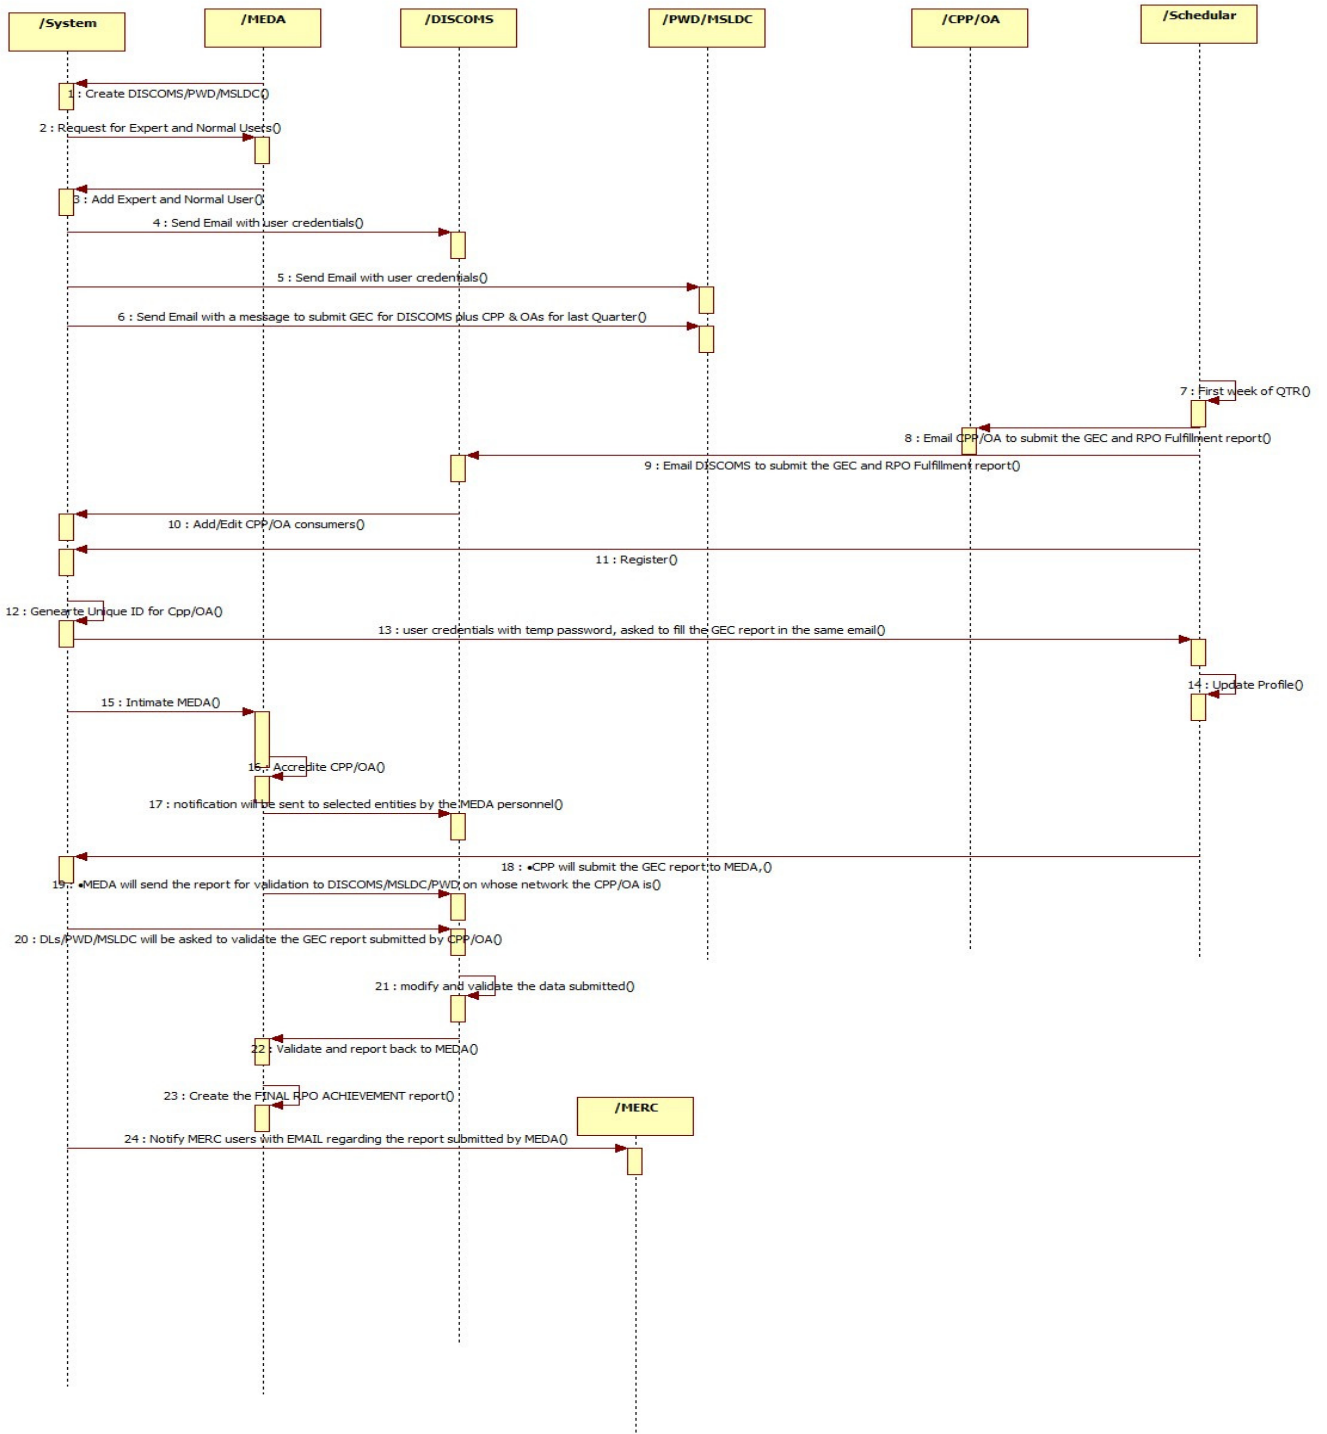

- CPP/OA
  - GEC
    - Submissions
  - Fulfillment of RPO
    - Solar
    - Mini/Micro Hydro
    - Non-Solar
  - Profiles

- MEDA
  - Distribution Licensees
  - Gross Energy Consumptions
  - Renewable Energy Procurement
  - RPO Settlement Account
  - Final RPO Achievement Data
  - Users
  - OA/CPP registry
  - Authorizations

**5.3 Diagrammatical representation of Scope of Work for RPO web portal**

#### **5.4 Business Process**

- MEDA will manually add DL/MEDA/MERC/PWD/MSLDC users and set their Authorizations as Normal or expert users.
- Identification of CPP and OA is done in the format as mentioned on above
- Show in Grid, provide print option to display report as shown above
- Editing/Deleting of CPP/OA is authority of DLs
- CPP/OA Unique ID to be generated as MH(CPP/OA)<Accreditation Number>
- MEDA can Accredite the records added by DL/PWD or any individuals, i.e. a button named Accredite will be available only to MEDA
- PWD also identifies CPPs has same rights as DL for adding CPP OACPP/OA can register by themselves.
- Upon registration/accreditation MEDA will receive an email intimation
- Upon accreditation , notification will be sent to selected entities by the MEDA personnel (Show intimation email format with <notify to> option)
- CPP/OA specifies which DISCOM they receive power from and that will automatically bring them under the respective DL for further processing in the system.
- CPP/OA receives user credentials with temp password. And requested to fill details with new password.
- CPP/OA will also be asked to fill the GEC report in the same email.
- CPP will submit the GEC report to MEDA,
- MEDA will send the report for validation to DISCOMS/MSLDC/PWD on whose network the CPP/OA is.
- DLs/PWD/MSLDC will be asked to validate the GEC report submitted by CPP/OA. To be able to see and validate these reports, a separate list will be shown to DLs/PWD/MSLDC and options will be provided to modify and validate the data submitted. Options (Valid/Invalid)

- DISCOMS/SLDC/PWD will edit the details and validate and report back to MEDA
- MEDA will then create the FINAL RPO ACIEVEMENT report.
- DL/MEDA/MERC/PWD/MSLDC will have two IDs (expert and Normal)
- Experts can Accredite/Delete/Approve entities, reports Where are Normal users will be able to do only rest of features.
- DISCOMS will/may submit quarterly GEC reports of CPP or OAs as per (19/20 PDF: RPO Manual) on their behalf for the first time when these are added.
- Experts can Accredite/Delete/Approve entities, reports Where are Normal users will be able to do only rest of features.
- DISCOMS will/may submit quarterly GEC reports of CPP or OAs as per (19/20 PDF: RPO Manual) on their behalf for the first time when these are added.

**5.5 Road Map and timeline for web portal development**

Activities	Timeline (in Days)							
	Month 1 (February)		Month 2 (March)		Month 3 (April)		Month 4 (May)	
Finalisation of Tender	← 28 Days duration →							
Placing of order for Web Portal			← 15 Days duration →					
Design of Web portal				← Design of portal layout its structure →				
Testing of Web Portal				← Parallel testing of work done in portal →				
Demonstration of Web Portal						← Demonstration to MEDA →		
Development of Web portal							← Develop page at after suggestion →	
Live Training on Web Portal							← Training to all concerned →	
RPO Web portal hosting								← Final online hosting →

## **6. Conclusion**

To develop mechanism for listing and accreditation of Captive Users and Open Access Consumers and set rules for accreditation of Captive Users and Open Access Consumers, Working Committee designed and formulated improved data collection formats and set the rules for process flow data information from obligated entities to MEDA and further its validation from DISCOMs in case of CPP / OA consumers to MEDA and thereafter this validated data will be utilized for accreditation purpose of obligated entities.

Thereafter, Committee carried out the exercise and collected validation data in case of 114 CPP / OA consumer entities referred in case no. 49 of 2013 as per improved data collection formats for further accreditation at MEDA. The result shows that, there are 21 entities are eligible for accreditation as obligated entities under Captive Power Producers category, 46 entities are eligible for accreditation as obligated entities under OA consumer category and 47 entities are eligible for exemption from Renewable Purchase Obligation for the FY 2010-11 to 2012-13.

Committee further verified the list of 1056 entities from DISCOMs / MSLDC / PWD (Electrical) and attached as a part of this report.

While verification of these entities, it was decided that all captive generators having the synchronization facility will be considered for listing & accreditation. The list to be prepared on the basis of grid connectivity & not the present usage of generation. The RPO obligation will be based on usage of generation which will be tracked on ongoing basis.

Working Committee on the basis of ToR for effective implementation of RPO Mechanism has proposed various actions and suggestions which are summarized below;

### **1. Identification of Obligated Entities and listing:**

Suggestions: To identify the obligated entity & Streamline the data collection mechanism, Working Committee designed data collection formats in respect of CPP / OA consumers separately on quarterly basis from DISCOMs, SLDC & PWD (Electrical).

### **2. Verification of Data submission by CPP consumers:**

Suggestions: The data received from entities further verified and validated through DISCOMs / MSLDC / PWD (Electrical) in case of 21 CPPs (Out of 114) entities. Same method is set to adopt in future for Quarterly reporting, verification & validation of RPO data submitted by obligated entities.

**3. Verification of Data submission by OA Consumers:**

Suggestions: The data received from entities further verified and validated through DISCOMs / MSLDC / PWD (Electrical) in case of 46 OA consumers (Out of 114) entities. Same method is set to adopt in future for Quarterly reporting, verification & validation of RPO data submitted by obligated entities.

**4. Practical difficulties in monthly data submission:**

Suggestions: To overcome the difficulties Working Committee designed quarterly basis data collection formats.

**5. Lack of standard data Formats:**

Suggestions: To overcome the difficulties Working Committee designed quarterly basis data collection formats.

**6. Standard methodology for Energy Accounting for computing RPO compliance of Obligated Entities:**

Suggestions: Gross Energy Consumption from own generation from CPP unit and procured via Open Access is taken into consideration in formats designed for data collection.

**7. Lack of check on Double accounting of RPO compliance:**

Suggestions: This issue has already been taken care while designing the data collection formats which provides due certification from concerned DISCOMs while submitting data to MEDA. DISCOMs to ensure such duplication are avoided during reporting of RPO compliance of DISCOMs. Accreditation of obligated entities and coding of RE generation facilities/their transactions would be necessary to avoid duplication in the credit of RE energy towards RPO compliance accounting.

**8. Lack of streamlined RPO related data flow between obligated entities and MEDA:**

Suggestions: MEDA has taken initiative in designing web portal based data submission system to enable obligated entities and other supporting agencies (DISCOMS/ MSLDC and EI) to make periodic submissions regarding RPO compliance.

**9. Lack of awareness among Obligated Entities:**

Suggestions: MEDA has published RPO manual and provided copies to all concerned offices as well placed RPO Manual on its official website for wider dissemination. In

addition to this, MEDA conducting face-to face meetings with prospective obligated entities to create awareness about Renewable Purchase Obligation.

Working Committee on the basis of ToR for effective implementation of RPO Mechanism has proposed key recommendations:

- To develop mechanism for establishing data flow and information exchange between various entities involved (Open Access Consumers to DISCOMs, Captive Users to Electrical Inspector's Office (PWD), DISCOMs to MEDA and Electrical Inspector's Office (PWD) to MEDA etc.), and to verify RPO compliance by Captive Users and Open Access Consumer, DISCOM, PWD (Electrical) & SLDC to submit information of their CPP/OA consumers quarterly in the data collection formats developed by Working Committee on regular quarterly basis to MEDA as under procedure of process flow chart for collection and verification of data.
- Cogeneration status will be certified by MEDA for Non- conventional plants & for Conventional plants by MSEDCL, MSETCL or PWD (Electrical).
- The grid connectivity status of captive power plant is the eligibility criterion as an obligated entity even though they momentarily connect / synchronized their unit to the grid as per their requirement.
- During the deliberations Working Committee expressed tremendous need of web portal for RPO Mechanism so as to ease in compilation of data and reports of obligated entities under RPO Mechanism. This will also facilitate Distribution licensees, PWD & SLDC in order to identify & onwards certification of entities as an obligated entities.

**7. Annexures**

**Quarterly updated details of Registered OA consumers having Contract demand 1MVA & above to be submitted by DISCOMs / SLDC to MEDA**

**Quarterly updated details of Registered Self Use/CPPs above 1MW to be submitted by DISCOM / PWD (Electrical) to MEDA**

Quarter: ----- to ----- of 20

Sr. No	Name of CPP unit (Self Use)	Address / Location of Self Use / CPP unit	Email-id / Contact details	Self Use CPP installed & generation capacity (in MW)	Registration No.	Registration date (DD/MM/YYYY)	Date of Commissioning (DD/MM/YYYY)	Source of generation (specify fuel type / technology)	Voltage level of grid connection (in KV)	Grid connection status (whether synchronized for parallel operation or not)	Gross Energy Consumption from own generation (from CPP unit) (in MWh)	Host DISCOM (not necessary if location of CPP specified)	Consumer number	Meter location and meter type (marked on the Single Line Diagram to be provided)
1														
2														
.														
.														
N														

Note: DISCOMs / PWD (Electrical) needs to submit above updated details for the quarter by first week of next quarter to MEDA.

Say: for April- June quarter-First week of July

for July- September quarter-First week of October

for October- December quarter-First week of January

for January- March quarter-First week of April

**Annexure-I**

Quarter: ----- to ----- of 20

Sr. No	Name of OA consumer	Address / location of OA consumer	Email-id / Contact details	Consumer No.	Capacity of Open Access (in MW) & period for Open Access	OA consumer contract demand (in KVA)	Consumer Voltage level (in KV)	Name & address of Generator Unit	Source of generation (specify fuel type/technology)	Generation Voltage level (in KV)	Energy wheeled under Open Access (Grossed up for losses) (in MWh)

**Sub: Status of Grid-connectivity of your Captive Power Plant in respect of 'Renewable Purchase Obligation'**

Dear Sir,

In the exercise of the powers conferred under Sections 61, 66, 86(1) (e) and 181 of the Electricity Act 2003 and all other powers enabling it in this behalf, the Hon'ble Maharashtra Electricity Regulatory Commission (hereinafter referred to as "The Commission" or "MERC") has notified the MERC (Renewable Purchase obligation, its compliance and Implementation of REC framework) Regulations, 2010 ["MERC (RPO-REC) Regulations, 2010"] on June 07, 2010.

Under the said RPO Regulations, the Hon'ble Commission has specified the Renewable Purchase Obligation (RPO) targets for Obligated Entities.

In the said Regulations, Obligated Entity has been defined as:

**"Obligated Entity"** means the distribution licensees, users owning captive power plants, and open access consumers in the State of Maharashtra, who have to mandatorily comply with renewable purchase obligation under these Regulations subject to fulfillment of conditions outlined under Regulation 5;

& Regulation 5 specifies:

*"The minimum percentage as specified under Regulation 7.1 shall be applicable to all Distribution Licensees in the State of Maharashtra as well as to open access consumers and captive users within the State of Maharashtra, subject to following conditions:*

- (a) Any person who owns a grid connected Captive Generating Plant with installed capacity of 1 MW and above (or such other capacity as may be stipulated from time to time) and consumes electricity generated from such plant for his own use; shall be subjected to minimum percentage of RPO to the extent of his consumption met through such captive source.
- (b) ...
- ...

*Provided further that condition under sub-clause (a) above, shall not be applicable in case of Standby (or Emergency back-up) Captive Generating Plant facilities."*

Regulation 5 states that grid connectivity status is criterion for deciding obligated entity under RPO Mechanism.

As per the information available with us, the captive generating unit installed at your premises is connected / synchronized to the <DISCOM NAME/TRANSMISSION (InSTS)> network, either continuously or momentarily and thus qualifies as an Obligated Entity under the MERC (REC-RPO) Regulations, 2010.

Any objection in this respect of above shall be raised within 15 days from the date of this letter and sent on above address so as to reach in stipulated period in the form of written document accompanied with:

1. Single line diagram authenticated by a designated person in that regard and signed by authorized signatory.
2. A copy of NOC / permission issued in respect of commissioning / synchronization / Grid connectivity.

Thanking You.

## **Annexure-IV**

Perspective list generated of 1056 CPP / OA consumer entities for the year 2010-11 to 2013-14 under verification of DISCOMs.

**Quarterly updated details of Registered Self Use/CPPs above 1MW to be submitted by DISCOM / PWD (Electrical) to MEDA**

Quarter: ----- to ----- of 20
